**HOME2 SUITES HOTEL TO OPEN IN KNOXVILLE, TN**  
**Hotel provides functional space for living and working, helping guests**  
**keep their routine while traveling.**

Knoxville, TN (June 15, 2015) - The 100-suite Home2 Suites Knoxville West by Hilton in Knoxville, TN officially opened its doors today. Located at 380 North Peters Road, the Hilton franchise will be operated and managed by 3H Group Hotels of Chattanooga, TN.

Located near Neyland Stadium at the University of Tennessee, Home2 Suites is the second Hilton property and 21<sup>st</sup> hotel to join the 3H portfolio. The hotel's location provides easy access to I-40 and I-75, as well as many restaurants and shopping options, including Turkey Creek and West Town Mall.

Unique from other hotels in the area, the Home2 Suites features a roof top, Grid Connected solar System, designed to produce and conserve energy. The roof top solar modules produce electric energy which is used by the hotel, or released back to the local electric grid for use by others.

The all-suite hotel boasts a variety of complimentary amenities for guests including a daily continental breakfast, High Speed Internet access, 24-hour On Us coffee service, as well as a Fitness Center and pool access.

The contemporary decor and neutral tones provide a relaxing environment and wholesome welcome. Guests feel at home in a flexible suite with a living area and a full kitchen with a dishwasher, microwave and refrigerator. Guests will enjoy watching the 40-inch flat-screen HDTV and checking emails with complimentary WiFi. Don't leave your furry friend behind! Home2™ is your pet's home, too.

"3H Group is proud to open our first Home2 Suites brand, and second Hilton property," said Hiren Desai, CEO of 3H Group Hotels. "The award-winning mid-tier, extended-stay hotel is a fantastic addition to the 3H family."
